DILSHAN MUDITHA

UNDERGRADUATE

PROJECTS

- Developing business web site for the AIC Engineering company.

I'm working on a client's personal project right now. This website is for the show there past construction projects, there about, there contact details, and about of there. It has admin dashboard for the change and add projects to the web site. I'm using here Laravel Framework and javascript, html, tailwind css, and php here. and the database provider I'm using is Apache MySQL.

- Developed a company management Windows form application for the AIC Engineering Company.

This is one of my client-related personal projects. This software can do calculate salaries of workers, see worker details, see ongoing projects details, and also add and see expenses of company. I developed this using the .net framework and the c# language on the Microsoft Visual Studio platform. I used the database provider MS SQL Server Database.

SKILLS

Technical Skills

- Laravel Framework
- .Net Framework
- PHP Language
- C# language
- Python
- MySQL, SQL Server
- Tailwind CSS, Html, CSS
- JavaScript
- Agile methodology with JIRA Software
- OOP/OOD Concepts
- Web and application servers(IIS/Tomcat)
- Git
- UI Design

Soft Skills

- Leadership
- Problem Solving and Logical Thinking
- Teamwork
- Time Management
- Innovative
- Effective communication

VOLUNTEERING

- Deputy Head Prefect of Bandaragama Central College in 2017.
- Member of FOSS Community in NSBM Green University.
- President of Science Society Bandaragama Central College in 2017.
